March 2025

Federal Update: No More Checks After September

Dear Clients and Friends,

A Presidential Executive Order, issued on March 25, 2025, eliminates check payments to and from the Federal Government **effective September 30, 2025.**

Those who like checks are ok for this tax season, but it's the last time. The Treasury is directed to stop issuing paper checks for all Federal disbursements, including tax refunds.

Social Security made this shift back in 2013 and it largely went unnoticed. This transition aims to reduce costs, delays, and the risks of fraud associated with paper checks.

Here is a link to the order.
